6. When possible, submit your documents electronically. Some forms may be faxed to 804-527-4426 and are indicated as such. If you must mail your documents to the Board, you are encouraged to send them via FedEx or UPS so you can track their delivery. The Board is unable to track documents delivered via USPS.
7. For mailed applications, the Board does **not** accept supporting documents that are copied *after* they are notarized. Notarized supporting documents should be sent *directly from the program office or school to the Board* via mail or hand delivery.
8. Consistent with Virginia law and the mission of the Department of Health Professions, public addresses on file with the Board of Medicine are made available to the public. The Board address noted on your application may be different from the public address and is not released to the public. The Board of Medicine allows the Board address of record to be a Post Office Box or practice location.
9. The Board processes applications efficiently, but licensing time depends on external entities, so plan accordingly. Applicants must ensure all required documentation is sent to the Board. If the Board deems any of the required criteria for endorsement is unmet, your application will be routed to the traditional pathway for an initial license in Virginia.
10. **Do not begin practice prior to Board approval.** Submission of an application does not guarantee a license.
